Re: Timothy Herron, MD

10 March, 2009

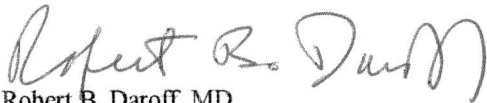

To Whom It May Concern

This letter describes my long relationship with Dr. Timothy Herron. I've known him since 1980 when he was a freshmen medical student at Case Western Reserve University. He expressed a very early interest in Neurology and completed his Neurology residency with us at University Hospitals of Cleveland in 1988. He was a superb resident and we recommended that he obtain an Electrodiagnostic Medicine Fellowship at Vanderbilt Unidersity.

Following the Fellowship, he joined the practice of Dr. Donald Mann, a long time member of our part time faculty. He then went into solo practice in in the Cleveland suburbs and, since June 2000, has been in solo Neurology practice in Sandusky, OH.

During his years of practice, I've had the opportunity to share patients with him, and have always been impressed with his scholarly approach to clinical diagnosis and treatment. He is an absolutely outstanding clinical neurologist, and he adheres to the highest ethical professional standards.

Respectfully submitted

Robert B. Daroff, MD
Professor and Chair Emeritus
Department of Neurology

Past President, American Neurological Association
